Put The Heat Where You Want It... BESCO ALASKA PADS

AUTOMOTIVE: Engines, Transmission, Differential, Starters, Power Steering Pumps

INDUSTRIAL: Hydraulic Reservoirs, Hydraulic Cylinders, Fuel Tanks, Engines, Transmissions

AGRICULTURAL WATER HEATERS: Livestock, Poultry, Pets

EASY INSTALLATION Clean, degrease & if possible, abrade the surface that the pad is to be bonded to. Oil resistant/high temperature silicone should be used. It is important that the full face of the pad is covered with silicone & there are no air bubbles. To aid in holding the BESCO ALASKA PAD in place, a piece of duct tape can be used & removes after curing. Curing will begin immediately, but will vary depending on temperature & humidity. Normally 6-12 hours will be sufficient for curing.

Sizes Available:

- 3 x 5 - 75 watts 4 x 5 - 100 watts 4 x 10 - 200 watts 5 x 4 - 150 watts
5 x 10 - 250 watts 6 x 10 - 300 watts 6 x 15 - 450 watts 12 x 12 - 720 watts

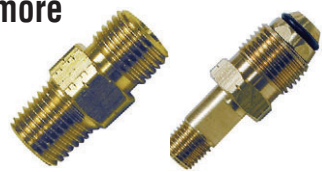

Tiger Torch Kit #95-BK\$132.99

- Burner Torch
- 15' Type I Hose Assembly
- Regulator 0-30 PSI
- Brass Welding Adapter

Hose, Adapter & Regulator fully assembled & ready for service

Also Available:
Regulator Couplers,
POL Adapters, Filter
Bushings, Orifices &
more
