TRICO

Trico Wiper Systems: Innovations seen clear across the globe®

WE'VE TAKEN THE LATEST IN WIPER TECHNOLOGY & MADE IT EVEN BETTER!
With the launch of NeoForm® blades, TRICO has created a superior beam blade for the super premium wiper category. NeoForm blades have the look and function of the latest OE blades, but with the value-added performance of Teflon® resin.

Wiper Blades That Just Click On Easy!!!
TRICO has taken the extra step of pre-assembling the wiper blade so that the blade's receptor exactly matches the specific arm style of the vehicle. The easy installation allows professional installers to save time and confusion, and enables any consumer to change their own wiper blades.

Features a protective rubber boot to help prevent snow and ice from clogging the blade. This allows the blade to maintain even pressure to provide a clean wipe and enhance driving visibility. Constructed of high-grade steel and extruded rubber for durability and performance in wet, wintry weather. Lengths ranging from 11" to 28".

REAR WIPER BLADES AVAILABLE SOON - MOST MODELS
