

World Class Shocks & Struts

KYB produces a variety of ride control products for use as original equipment & replacement parts in automobiles, SUVs, recreational vehicles & light trucks. The KYB line includes gas-filled monotube & twin tube shock absorbers, gas cartridges, gas struts, strut mounts & strut boots.

Gas-a-Just® High Performance Shocks provide a high performance ride. The right choice to dramatically improve handling & control on cars, vans, light trucks & SUVs.

AGX® Sport Adjustable Shocks and Struts allow drivers to adjust dampening to match specific driving conditions quickly. The right choice when you want to choose & dial-in your vehicle's ride control performance.

KYB Strut-Plus™ - Complete Corner Unit Assembly. For popular vehicles with high registrations or a history of spring fatigue. Ready to install, no spring compressor required, problem solver: quicker & easier.

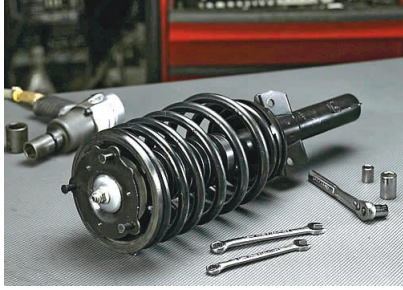

What's Included: KYB Excel-G strut, KYB coil spring, bearing plate, boot kit & bumper, spring seat & isolators.

MonoMax™ Heavy Duty Shocks are specifically engineered to provide better handling and control for SUVs & light trucks. The right choice when you need a truck shocks that outperforms anything in its category.

GR-2® restores the control & handling of your vehicle back to the way the OE manufacturer intended. The KYB GR-2 damping rate (boost) is recalibrated to compensate for worn suspension components. Available for virtually all domestic & import cars, light trucks & SUVs.

BUY ONE KYB SHOCK OR STRUT & GET THE SECOND ONE 50% OFF!

Don't let the job go half done... COME SEE US OR ASK YOUR SERVICE PROVIDER TODAY!

KYB strut mounts & boots feature construction & fit that meets or exceeds original equipment specifications & are available for both domestic and import vehicles. Strut mounts play a vital role in improving the vehicles handling, ride control, alignment, braking & steering. KYB strut mounts & boots are an integral part of proper strut service. They improve the quality of the installation while extending the life of the strut & enhancing the safety & performance of your vehicle.

KYB Steering Stabilizers are engineered to dampen wheel shimmy & steering vibration to reduce tire wear & extend the life of other steering & suspension components. Their special valving maximizes control both on the road & in rough terrain. Take total control with KYB Steering Stabilizer & your new KYB Shocks.

*Strut mounts, boots & steering stabilizers are excluded from sale.
